

## **FAQ at Interim Financial Results**

Q1 : This first half is increasing tangible fixed assets and intangible fixed assets, compare to the previous year though, is this due to timing or doing prior investment?

A1 : It is for the prior investment. We have done migration QlikView as BI tool, to Microsoft Sharepoint from a document management system, an equipment investment for the establishment of Shiodome Office, then these were reported on assets.

Q2 : SoftBank group has done a large scale of M&A in recent years though, do you have any advantages from that?

A2. In addition to expand hardware products, we promote recruitment, acquisition of the high technology qualifications. We will work on the expansion of the order from SoftBank group.

Q3 : Considering of the situation in east Asia recently, will you have any business impact from that situation?

A3. We are measuring risk avoidance and some other steps though, we assume there's no impact badly to our business.
