Corporate Governance Report

CORPORATE GOVERNANCE

Last Update: June 20 2022

SB Technology Corp.

Shinichi Ata, President & CEO

Securities Code: 4726

<https://www.softbanktech.co.jp/en/>

The corporate governance of SB Technology Corp. (the “Company”) is described below.

I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

The SB Technology group is guided by a corporate philosophy of “Information Revolution – Happiness for everyone - Technologies Design the Future -” and provide ICT services. We are dedicated to properly working with shareholders and all other stakeholders in order to contribute to achieving a more fulfilling and beneficial information society. Our goal is to use these activities for sustained growth and medium to long-term improvement in corporate value. Accomplishing this goal requires the proper establishment of a framework that makes it possible to reach decisions with transparency, fairness, speed and resolution. We seek to strengthen our corporate governance continuously.

Reasons for Non-compliance with the Principles of the Corporate Governance Code [Updated]

Principle 2.4 Ensuring Diversity, Including Active Participation of Women

Supplementary Principle 2.4.1

We promote diversity, including the furtherance of women's active participation within the company.

As of April 2022, the date of submission, female employees accounted for 18.0% of our total workforce and 9.0% of our management positions. Non-Japanese employees make up 2.5% of our workforce. With regard to the promotion of core personnel, we have introduced a personnel system called the "Mission Grade System," under which employees are promoted equally according to their roles independent of other attributes.

With regard to human resource development, our policy is to support the further growth of each individual by establishing a framework for training and human resource development systems that enable employees to independently advance their careers toward their own career goals. Based on the human resource development policy, we have prepared a system to improve the in-house environment by providing leave for skill- and capacity-building, expenses for examinations, incentives for acquiring qualifications, and a system for employees to learn from one another. In addition, as a result of our efforts to support women's active participation in the workplace, we have been certified with the highest ranking (in a three-stage evaluation) under the Act on Promotion of Women's Participation and Advancement in the Workplace, and have received the "Kurumin" certification from the Ministry of Health, Labour and Welfare under the Act on Promotion of Support for the Development of the Next Generation recognizing efforts to create an environment that facilitates a balance between work and child-rearing for employees.

We will consider setting measurable targets to promote diversity in the future.

Disclosure Based on the Principles of the Corporate Governance Code [Updated]

Principle 1.4 Cross-shareholdings

"Policy on Strategic Holding of Listed Stocks and Reduction of Said Holdings"

From the standpoint of enhancing corporate value over the medium- to long-term, we will thoroughly consider business necessities such as corporate alliances and the establishment, maintenance, and enhancement of business relationships, as well as the economic rationality of investments. We will hold listed stocks only when we deem it necessary.

Every year, at the Board of Directors meeting, we verify the appropriateness of continuous holding of listed stocks by taking into account factors such as the latest business performance of the investee, the status of unrealized gains/losses on our stockholdings, and the risk of a decline in stock prices from a medium-to long-term perspective, in addition to business benefits such as the strengthening of alliances by continuing to hold stocks.

"Standards for the Exercise of Voting Rights Related to Strategic Shareholdings"

When exercising the voting rights of our strategic shareholdings, we will carefully examine the content of each proposal and exercise our voting rights appropriately after comprehensively determining that it will not impair the shareholder value of the investee or impair our alliances.

Principle 1.7 Related party transactions

We will conduct transactions with related parties on the terms and conditions of ordinary transactions, and we approve the reporting of such transactions at the Board of Directors meetings if such transactions are deemed likely to harm us and the common interests of our shareholders, so that provide appropriate oversight may be provided. Similarly, the Board of Directors will approve and report transactions with respect to competitive transactions and transactions by directors that may represent a conflict of interests.

Principle 2-6 Roles of Corporate Pension Funds as Asset Owners

We do not participate in specific corporate pension funds. The Company has introduced a corporate defined contribution (DC) pension plan, and selects operational management institutions and investment products and provides education to employees on asset management as appropriate.

Principle 3.1 Full disclosure

We provide information on items (i) to (v) as follows.

(i) The Company's goals (management philosophy, etc.), management strategies, and management plans

To further enhance the trust and understanding of our stakeholders—including shareholders, employees, customers, and business partners—we publish our management philosophy and our vision and management plan for the sustainable growth of the Group and the enhancement of corporate value over the medium- to long- term on our website, and in our financial briefing statements.

(ii) Our basic approach to corporate governance, and basic policies based on each principle of this code

Our basic stance and policies on corporate governance are disclosed in our Corporate Governance Report and on our website.

Please refer to "I.1. Basic Views" in this report.

(iii) Policies and procedures by which the Board of Directors determines the compensation of senior management and directors

In order to function as an incentive, our remuneration system for directors, excluding outside directors, consists of basic remuneration as fixed remuneration and performance-based bonuses and stock remuneration as variable remuneration (restricted stock awards and stock options). Individual remuneration amounts are determined as appropriate after deliberation by the Nomination and Compensation Advisory Council in accordance with internal rules on executive remuneration, comprehensively taking into account the Company's performance, the executive's degree of contribution, and economic conditions. Remuneration for outside directors is limited to basic remuneration in light of their role in monitoring and supervising management from an independent standpoint.

(iv) Policies and procedures for the appointment and dismissal of senior management and the nomination of candidate directors and Audit & Supervisory Board members by the Board of Directors

The appointment of candidate directors and Audit & Supervisory Board members is conducted through interviews with the President and CEO and the directors nominated by the President and CEO based on the recommendations of other directors, Audit & Supervisory Board members and outside experts to confirm that the candidates have diverse experience, knowledge, high expertise and insight. The Nomination and Compensation Advisory Council, whose majority are independent outside directors, exchanges opinions and discusses matters, and proposals regarding the candidates' election to be submitted at a General Meeting of Shareholders are determined by the Board of Directors at their meeting after obtaining the consent of the Audit & Supervisory Board members regarding candidate Audit & Supervisory Board members.

(v) Explanation of individual appointments, dismissals, and nominations when the Board of Directors appoints executives and nominates candidates for Directors and Audit & Supervisory Board Members based on (iv) above

Regarding the appointment of candidates for directors and auditors, the brief personal history, reasons for appointment, and the status of important concurrent positions shall be described and explained in the announcement for the general shareholders' meeting. In addition, reasons for dismissal of directors and corporate auditors shall likewise be stated and explained in the announcement for the general shareholders' meeting.

Supplementary principle 3.1.3

1 : Sustainability initiatives of the Company

Under our vision of "Generating New Value to the World by Leading Technologies and Creativeness with Diverse Work Styles and Opportunity-full Culture", we aim to address social issues by supporting our customers' businesses and to realize a sustainable society through our business activities and corporate activities.

See Supplementary Principle 2.3.1 for information about our views, policies and initiatives for sustainability.

2 : Investments in human capital and intellectual property, etc.

As we have included the increase of human capital that will drive growth and the establishment of a framework for the creation of businesses in our material issues, we will implement measures to increase employee engagement by providing a mechanism for enabling employees to develop skills and establishing a pleasant

working environment based on our personnel strategy, by which the growth of each individual will lead to the growth of the company.

3 : Impact of climate change-related risks and earnings opportunities

Given the extreme weather conditions caused by climate change and rising societal demands for measures to combat climate change, we recognize that it is vital that we understand the risks and opportunities that climate change will pose to us in the future. We also believe it is important to verify the effectiveness of current measures to combat climate change and apply them in the future formulation of strategy as necessary.

In line with the TCFD recommendations, we will analyze scenarios, organize the impact on our activities and promote a range of measures to continuously stay up to date on information related to climate change.

Supplementary principle 4.1.1 Determination of scope of delegation to management and disclosure thereof

The Board of Directors shall make decisions on important matters related to the Group's business operations in accordance with laws and regulations, the Articles of Incorporation, and the Regulations of the Board of Directors. The Board of Directors delegates its authority to the Managing Directors and Executive Officers in accordance with the Company's internal regulations on operational authority.

Principle 4.9 Independence standards and qualification for independent directors

Criteria for determining the independence of independent outside directors and others are disclosed on our website.

(Japanese language only)

Supplementary principle 4.10.1 Use of Optional Approach

Our Independent Outside Directors have reached a majority of the Board of Directors, and we have a system in place that enables us to obtain appropriate involvement and advice regarding the nomination and remuneration of management executives and directors.

In addition, the Nomination and Compensation Advisory Council, which is a voluntary committee, is responsible for investigating, deliberating, and making recommendations regarding the nomination and remuneration of directors, and is determined in an appropriate manner. The majority of the members of the Nomination and Compensation Advisory Council are independent outside directors, and its independence is ensured by its chairperson being an outside director.

Supplementary Principle 4.11.1 Preconditions for Board and Kansayaku Board Effectiveness

We define and disclose the following ideas on balance, diversity, and the scope of knowledge, experience and abilities of the Board of Directors as a whole.

"Approach to Balance, Diversity, and the Scope of Knowledge, Experience, and Capabilities of the Board of Directors as a Whole"

In order to ensure the balance and diversity of knowledge, experience, and abilities of the Board of Directors as a whole, which are necessary for the sustainable growth of the Company and the enhancement of corporate value over the medium- to long-term, the Board of Directors shall select outside directors by considering their experience, insight, and expertise. The Board of Directors shall also select internal directors by comprehensively evaluating and judging from the viewpoint of the right person in the right position so that they can make appropriate and prompt decisions based on their experience, insight, expertise, and other factors, while ensuring a balance that can cover the execution of business in each field of the Company. With regard to the size of the Board of Directors, assuming the delegation of authority to properly allocated executive officers, the Board of Directors shall be simplified and appropriately deliberated in order to expedite decision-making, and will be of an appropriate size for supervising the execution of business. The Articles of Incorporation stipulate that the Board of Directors shall not exceed nine officers. We have also disclosed a skill matrix that lists the knowledge, experience, abilities, etc. of each director.

Supplementary principle 4.11.2 Status of concurrent positions of external directors and external audit & supervisory board members

Although some of our officers concurrently serve as officers of other listed companies, the number of such officers is limited as appropriate, and we believe that they can properly fulfill their roles and responsibilities as directors and corporate auditors of the Company. For the purpose of concentrating on duties and preventing conflicts of interest, if an officer concurrently serves, a resolution is required at the Board of Directors meeting. The Board of Directors decides whether or not the officer in question can concurrently serve after deliberating the individual attributes of the officer, the status of the concurrent position, and other factors, including overall balance, at the Board of Directors meeting. The same applies to directors and Audit & Supervisory Board members who concurrently hold positions other than officers of other listed companies. The status of key concurrent positions of Directors and Audit & Supervisory Board Members is disclosed annually through business reports, securities reports, and corporate governance reports.

Supplementary principle 4.11.3 Analysis and evaluation of the overall effectiveness of the board of directors

Our Board of Directors plans to conduct surveys and interviews for all directors and corporate auditors, receive third-party advice, compile and analyze the responses to said surveys and the results of interviews, share the results with the Board of Directors, conduct self-evaluations, and disclose them.

In accordance with the above policy, we will strive to further improve the effectiveness of the Board of Directors by continuing to evaluate the Board's effectiveness.

“Evaluation of the Effectiveness of the Board of Directors”

<https://www.softbanktech.co.jp/en/ir/management/governance/>

Supplementary principle 4.14.2 Policy for training for directors and audit & supervisory board members

Our basic policy is to continue to provide the training opportunities necessary for directors and corporate auditors to fulfill their roles and responsibilities.

Directors and Audit & Supervisory Board Members shall strive to acquire and refine necessary knowledge and new knowledge according to the times by actively participating in regular training for officers held throughout the SoftBank group, as well as external seminars organized by organizations of which we are a member.

Principle 5.1 Policy for constructive dialogue with shareholders

We have established a person responsible for—and a department in charge of—dialogue with shareholders, and have appointed a representative director as well as an executive officer in charge of IR and the Corporate Planning Department, in cooperation with each other. In addition, each of the Company’s departments, including Finance and Accounting, Legal Affairs, and General Affairs, exchanges opinions with the Corporate Planning Department based on their respective professional perspectives while conducting daily information exchange and disclosing and explaining financial results, etc., in order to establish an organic collaborative system to assist in dialogue with shareholders. To help shareholders and investors deepen their understanding of our business, we hold results briefings for analysts, hold interviews and meetings with institutional investors, hold briefings for individual investors, and provide information through our website to enhance dialogue. Opinions and concerns voiced at these meetings are then reported to the Board of Directors and management as appropriate. For these activities, we endeavor to manage, as appropriate, the handling of material facts that have not yet been announced in accordance with our internal regulations concerning the prevention of insider trading, and ensure fair information disclosure.

In addition, the same applies to the calculation and determination of pricing

5. Special Circumstances Which May Have Material Impact on Corporate Governance [Updated]

[About Our Parent Companies]

Relationship with Our Parent Companies

- Our parent companies are SoftBank Group Corp. ("SBG"), SoftBank Group Japan Corp. ("SBGJ") and SoftBank Corp. ("SBKK"). SBKK owns 10,735,000 of our shares (voting ratio 53.0% at the end of March 2022) directly. SBG and SBGJ are also parent companies of SBKK and own our shares indirectly. Of these parent companies, that which has been deemed to have the greatest impact on us is our direct parent company, SBKK.
- One employee of the parent company has been appointed as a director of the Company for the purpose of mutual synergy with the parent company and strengthening IT collaboration. In addition, one employee of the parent company has been appointed as a corporate auditor for the purpose of information exchange and strengthening monitoring functions.
- We sell products to SBKK and provide system development and technical support services. In addition, we have a brand-use license agreement with SBKK pursuant to which we are permitted to use the name "SB" and other terms. In transactions with SBKK, the Company pays attention to determining prices based on cost of sales, SG&A expenses, fair earnings, market trends,

and other factors.

Approach to Group Management and Policies of the Parent Company

Based on the shared management philosophy of "Information Revolution - Happiness for everyone", SBKK is engaged in a variety of businesses in the information and technology field. SBKK Group aims to create synergies and continue to evolve and grow together, while respecting and ensuring the independence of its subsidiaries. In this way, the Group aims to maximize its corporate value.

Approach to Ensuring Independence from Our Parent Company, and Measures for that Purpose

As mentioned above, we have a parent company. However, based on the Group management philosophy and the policies of the parent company as described above, we are developing the Group's business based on our own decision-making and management decisions. Aside from entering into agreements between the parent company and us—including covenants binding SBG and its subsidiaries and affiliates that are not parties to the agreements (including non-compete), and the use of the SOFTBANK brand—there are no restrictions on, among other things, matters of approval in conducting business activities. In addition, one employee of the parent company is appointed to our Board of Directors. However, this does not comprise half of our nine directors, and we have also appointed five independent outside directors, which account for more than half of all directors. Accordingly, we believe that our independence is sufficiently ensured in management.

[About Our Listed Subsidiaries]

Our Approach to Group Management and Policies

As the core company of the SOFTBANK Group's ICT services, we aim to be a business partner that not only improves the operational efficiency for customers and reduces costs, but also realizes the growth of our core business through ICT services together. This is based on our corporate philosophy of "Information Revolution - Happiness for everyone -Technologies Design the Future -". Because technological advances in the ICT field to which we belong are extremely rapid, it is imperative that we collaborate with a wide variety of businesses in order to continue providing high-value-added services to customers. While respecting the independence of our subsidiaries and ensuring their independence, our Group aims to create synergies among each company that we can continue to evolve and grow together. In doing so, we aim to maximize the corporate value of the Group.

Measures to Ensure the Effectiveness of the Corporate Governance System of Listed Subsidiaries

We have established management policies, systems, related procedures for the Group as a whole, and have established the "SBT Group Company Management Regulations" for the purpose of facilitating and streamlining management and ensuring the appropriateness and fairness of our Group's operations as a whole, and require us to pre-approve or report important decisions made by our subsidiaries and related matters. However, from the standpoint of independence and the protection of minority shareholders, we do not seek such prior approval for our listed subsidiaries, and we require reporting only to the extent that it affects our disclosure obligations and so forth. We take care to ensure that we are not unduly binding decisions made by our listed subsidiaries.

Significance of Having a Listed Subsidiary

We have a publicly traded company, Cybertrust Japan Co., Ltd. ("CTJ"), as one of our subsidiaries. Based on its certification technology, CTJ provides trust services that prove the accuracy of "people, goods, and costs" in the Internet space. CTJ's trust services are expected to generate synergies through collaboration with our services, which will contribute to enhancing the corporate value of the entire Group. Trust services are a new social infrastructure in the digital society, and such services of a public nature are required to be performed from a neutral standpoint. We believe that CTJ will contribute to its growth by engaging in business from a highly transparent, fair, and neutral standpoint while receiving recognition in the stock market, as well as conducting autonomous management that takes into account the interests of minority shareholders. At this time, we thusly believe that it is desirable to maintain CTJ's listing.

Supporting System for Outside Directors and/or Audit & Supervisory Board Members

The Secretariat of the Board of Directors, which is led by the Corporate Planning Division, provides outside directors and outside Audit & Supervisory Board members with information on meetings of the Board of Directors, materials on proposals, and other materials, presenting them in advance. In addition, the Internal Audit Office cooperates with outside Audit & Supervisory Board members from the time of drafting of audit plans. The Internal Audit Office also continuously exchanges information on the results of audits.

2. Matters on Functions of Business Execution, Auditing, Oversight, Nomination and Remuneration Decisions (Overview of Current Corporate Governance System) [Updated]

We established the Board of Directors and Audit & Supervisory Board based on Corporate Law, with adopt Corporate Officer system.

Current our management system is consist of 9 Board Directors, 11 Corporate Officers (including 3 Corporate Officers hold the post of Board Directors) 4 Audit & Supervisory Board members. We shall decide that Board Directors are assigned within 9 people and its one year term in the Articles of Incorporation. Our Board of Directors is composed of a majority of highly independent outside directors to achieve sound, transparent and objective management. Three of the Audit & Supervisory Board members are outside Audit & Supervisory Board members, each of whom monitors management from an independent perspective.

As an important role of our Corporate Governance System, Corporate Officer meeting is established. Corporate Officer Meeting is held every week and the tasks and business strategies in our business is reviewed by Corporate Officers.

Also, the consolidated subsidiaries, our corporate officer holds the post of its Directors and Audit & Supervisory Board Members and review about the business tasks.

Moreover, at the Board of Directors meeting held on June 20, 2022, we decided to change the name of the Compensation Advisory Council, which had been deliberating the compensation system and the amount of director compensation, to the Nomination and Compensation Advisory Council and change its roles, authorities and membership in order to further ensure the transparency and fairness of decision-making. The Nomination and Compensation Advisory Council also deliberates the appointment and dismissal of directors in addition to the matters it had previously deliberated. Additionally, a majority of the Nomination and Compensation Advisory Council, chaired by an independent outside director, are independent outside directors.

The status of accounting audits is as follows:

a. Name of auditing corporation

Deloitte Touche Tohmatsu LLC

b. Continuous audit period

Since 1997

c. Certified public accountants leading the independent financial audit

Mr. Hiroyuki Kobayashi and Mr. Takafumi Shimodaira

d. Audit assistance

The company has seven certified public accountants, eight accountants who have passed certification exams, etc., and nine other employees to assist in the audit process.

e. Policies and reasons for selection of audit firms

We confirmed the audit quality and independence of Deloitte Touche Tohmatsu based on the results of the evaluation by the Audit & Supervisory Board as described in f. below, and decided to reappoint Deloitte Touche Tohmatsu LLC. In the event that the Board of Corporate Auditors determines it necessary for reasons related to the performance of duties by the accounting auditor being hindered, etc., the Board of Corporate Auditors shall decide on the content of proposals regarding the dismissal or non-reappointment of accounting auditors to be submitted to the general meeting of shareholders. In addition, the accounting auditor shall be dismissed with the consent of all the auditors in the event that the accounting auditor is deemed to fall under any of the items set forth in each item of Paragraph 1 of Article 340 of the Companies Act. In this case, the auditor appointed by the board of auditors shall report to the effect that the accounting auditor has been dismissed and provide the reason for such dismissal at the first general meeting of shareholders convened after the dismissal.

f. Evaluation of audit firms by Audit & Supervisory Board Members and the Audit & Supervisory Board

In addition to receiving reports from the management executive division, which is the division subject to audit, the Audit & Supervisory Board of the Company hears the results of inspections by supervisory authorities and the quality control system within the Company from the auditing firms. In addition, the Audit & Supervisory Board evaluates the auditing firms after comprehensively considering whether audit quality is being maintained and appropriate audits are conducted through attendance at audit sites and other means.

3. Reasons for Adoption of Current Corporate Governance System [Updated]

To increase the independence and objectivity of the Board of Directors and ensure the effectiveness of management oversight, we have appointed five highly independent outside directors, and the majority of the Board of Directors are independent outside directors. Independent outside directors play an important role in the effective functioning of corporate governance by expressing their opinions on the Company's management from a neutral and objective standpoint and supervising the directors' execution of their duties. In addition, the Company has introduced an executive officer system to clarify decision-making authority and responsibilities, as well as to accelerate business execution by sharing management-related duties. Further, we have become a Company with an Audit & Supervisory Board based on the determination that the audit system of Audit & Supervisory Board members, including independent outside Audit & Supervisory Board members, is an effective means of ensuring management oversight. As a Company with an Audit & Supervisory Board, we are strengthening the auditing and monitoring functions of management while effectively utilizing the capabilities of the Audit & Supervisory Board members. Audit & Supervisory Board members with extensive work experience attend the meetings of the Board of Directors to express their opinions from the perspectives of legality and appropriateness. The opinions of the Audit & Supervisory Board are compiled and regularly submitted to the president to fulfill the management oversight function.

Based on the above, we believe that our corporate governance is functioning effectively.

IV. Matters Related to the Internal Control System

1. Basic Views on Internal Control System and the Progress of System Development [Updated]

The Board of Directors has resolved to adopt the following basic policies for the establishment of systems to ensure appropriate business operations:

- a. A system to ensure that the execution of professional duties by board members and employees conform to the law and to our Articles of Incorporation

Based on the Officer and Employee Code of Conduct, we are striving to raise awareness of compliance through compliance training for directors and employees, and to thoroughly execute duties based on various compliance-related regulations. In addition, in accordance with the Officer and Employee Code of Conduct, the Company rejects any involvement with anti-social forces and strives to develop internal measures, such as the inclusion of clauses for the exclusion of organized crime groups in various basic contracts, in order to take a resolute stance against such forces and deal with them appropriately. We conduct periodic monitoring in accordance with the Internal Audit Regulations and other internal regulations to ensure compliance with laws and the Articles of Incorporation relating to the execution of duties by directors and employees. In addition to strengthening governance by increasing the percentage of outside directors, we deliberate medium- and long-term management issues, the supervision of management execution, the ensuring of compliance and corporate governance issues.

- b. System for the maintenance and management of information with respect to directors' execution of duties

We manage the minutes of general meetings of shareholders, minutes of meetings of the Board of Directors, minutes of meetings of the Board of Corporate Auditors, business reports, and financial statements by the department in charge in accordance with laws and regulations, the Articles of Incorporation, and the Document Preservation Control Regulations. In addition, documents related to the execution of business by directors are kept and managed by the respective departments in charge in accordance with laws and regulations and the "Document Retention Management Rules." Directors ensure that all employees are fully aware of these documents.

- c. Systems for managing risks of loss including the relevant internal regulations

We identify external and internal risks that threaten the sustainable development of the company and the safety of officers and employees, and take the following measures to respond to them:

- We have formulated the Crisis Management Rules and the Basic Guidelines for Crisis Management as rules for appropriately recognizing and managing risks, appointed a manager to be responsible for risk management, and appointed a supervisory department for each risk according to the type of risk, and established a risk management system for the Company.

- The Risk Management Committee has been established to collect, analyze, and prevent information on risks.

- In the event that a serious risk materializes, we will establish an emergency headquarters and take appropriate measures to minimize damage.

With regard to crisis management for disasters, etc., we strive to ensure the safety of our officers and employees by introducing a safety confirmation system and other measures. Furthermore, in order to lead information security activities, we have established an Information Security Measures Committee to develop an information security system based on various information-related regulations, as well as to conduct audits and education.

d. System for ensuring efficient execution of directors' duties

We clarify the duties and operations of the Board of Directors in the Regulations of the Board of Directors and specify matters to be resolved and reported. In addition, the Company ensures an efficient management system by optimizing the authority of duties and decision-making through the Authority Regulations. In addition, the term of office for directors is set at one year in order to ensure an agile response to changes in the business environment and to clarify the management responsibilities of directors. At the same time, we have introduced an executive officer system to clarify management responsibilities and improve the efficiency of decision-making and business execution.

e. System to ensure appropriate business operations within the SBT Group

We have established the SBT Group Charter, which serves as a common code of conduct for our group. In addition, in order to ensure smooth business operations while respecting the autonomy of Group companies, we have established the SBT Group Company Management Regulations and established supervisory divisions to improve the integrity and efficiency of Group management, as well as to establish the following systems:

- We dispatch officers to major subsidiaries and, through the Boards of Directors of our subsidiaries, monitor the business conditions and financial condition of subsidiaries. In addition, every month our Board of Directors reports on the content of our business operations and considers matters of importance.

- We have established the SBT Group Compliance Regulations and are promoting compliance throughout the Group. At the same time, we are expanding the scope of our Free Access Line (hotline) to cover all Group companies in the interest of ensuring the effectiveness of compliance within our Group.

- In order to develop and strengthen risk management throughout the entire Group, we have established the SBT Group Risk Management Regulations and, as necessary, conduct operational audits of our subsidiaries in order to effectively monitor risks.

f. Matters related to the system concerning employees who are to assist in the duties of auditors, matters concerning the independence of such employees from the directors, and matters concerning ensuring the effectiveness of instructions given to such employees.

We do not currently have a dedicated employee assigned to assist the Audit & Supervisory Board Members in their duties. However, when requested by the Audit & Supervisory Board Members, employees in each division, including the Internal Audit Office, shall assist in such duties. Employees who assist in the duties of corporate auditors shall prioritize instructions given by corporate auditors when they receive such instructions, and shall not be subject to the instructions of directors, etc. with respect to such instructions.

g. System for directors and employees of the Company and subsidiaries to report to Audit & Supervisory Board members, and other systems for reporting to Audit & Supervisory Board members

Directors and employees of the Company and its subsidiaries are required to immediately report any violation of laws and regulations, of the Articles of Incorporation, or the existence of any other fact that is likely to cause serious damage to the Company in the course of business operations. Furthermore, Directors of the Company and its subsidiaries are required to make the forementioned reporting obligations known to the public. In addition, Directors and employees are required to promptly report on matters related to business execution from the Audit & Supervisory Board Members when they are required to do so. Yet further, the Audit & Supervisory Board Members receive reports on the results of audits from the Internal Audit Office, and when they are aware of the need for additional audits and improvement measures, they can issue instructions as necessary. We and our subsidiaries prohibit the adverse treatment of persons who have made these reports to corporate auditors, and make known any such violations.

h. Matters concerning the procedures for advance payment or redemption of expenses incurred in the performance of duties by company auditors, as well as other policies for the disposal of expenses or liabilities incurred in the performance of duties

When the statutory auditor requests advance payment of necessary expenses for the execution of his/her duties, etc., we promptly handle such expenses or liabilities.

i. Other systems to ensure effective audits by corporate auditors

The Audit & Supervisory Board Members receive reports on the results of audits from the Internal Audit Office and the accounting auditor, and cooperate in the implementation of audits. In addition, the Audit & Supervisory Board Members and the Internal Audit Office hold regular liaison meetings to share information, report on the status of implementation of respective audits, and maintain close communication regarding the implementation of other cooperative audits. In order to supervise the accounting auditor and ensure the independence of the accounting auditor from the directors, the Board of Corporate Auditors independently receives reports on the audit results of the accounting auditor. In addition, Audit & Supervisory Board members attend meetings of the Board of Directors, express their opinions, and make recommendations and reports to the Audit & Supervisory Board.

j. System to Ensure Appropriateness and Reliability of Financial Reporting

To ensure the appropriateness and reliability of financial reporting, we have formulated a Basic Policy on Internal Control over Financial Reporting, and have established a system to promote internal control, including the establishment of an Internal Control Committee and the appointment of a director in charge of supervision. Furthermore, in order to properly respond to the Financial Instruments and Exchange Act and other related laws and regulations, the Group is working to

improve the reliability of financial reporting by establishing an information processing system.

2. Basic Views on Excluding Antisocial Forces and the Progress of System Development

In our Officer and Employee Code of Conduct, we have established a policy of refusing any and all involvement with anti-social forces, and in order to take a resolute attitude toward these issues and take appropriate measures, we are working to establish internal arrangements such as incorporating the exclusion provisions of organized crime syndicates into various basic contracts. The General Affairs Department and the Legal Department act as contact points for responding to unreasonable demands from anti-social forces in cooperation with the police authorities, lawyers, and other external specialist organizations, taking a resolute stance and rejecting them absolutely.
